

Coats® EcoVerde™ Dual Duty™ Indigo

Coats EcoVerde Dual Duty Indigo is a premium quality cospun thread that combines a high tenacity 100% recycled polyester filament core with a Better Cotton Initiative (BCI) cotton cover. The filament core offers excellent strength and durability, while the long staple cotton wrap ensures excellent sewing performance and protects the core from needle heat. It is the eco-friendly response to natural indigo dyed sewing threads. Free of harmful substances, Coats EcoVerde Dual Duty Indigo gives the natural look of a faded blue, matching the natural fade effect of the denim garment. After sewing, the saturated colour of the thread is washed down during the denim wash process to give a unique fade effect so that every garment sewn with Coats EcoVerde Dual Duty Indigo is truly unique.

COATS EcoVerde™

Dual Duty™
Indigo

100% RECYCLED
POLYESTER CORESPUN
WITH COTTON WRAP

2026

Why choose Coats EcoVerde™ Dual Duty™ Indigo?

- Features a 100% recycled polyester filament core to support a reduced environmental footprint
- Offers special shade effects
- Delivers outstanding sewing performance and maximum durability
- Coats EcoVerde Dual Duty Indigo thread reduce costly after wash repairs and focus on creating high performance iconic denim pieces which will last a lifetime
- OEKO-TEX® STANDARD 100, Product Class I
- Less energy intensive to produce in comparison to virgin materials, which results in lower carbon emissions during production
- Delivers a similar level of performance as the virgin range, whilst offering sustainability benefits
- Global Recycled Standard (GRS) certified

Main Uses:

- Denim and jeans for which matching the unique fade effect of the garment is needed
- Ladieswear
- Menswear
- Various other applications where a special shade effect is desired

Areas of Application

Coats EcoVerde Dual Duty Indigo is ideal for decorative stitching as well as for general seaming. It is available in the full thread size range of Coats EcoVerde Dual Duty. Place your order using product article code EVN5 for Coats EcoVerde Dual Duty Indigo, followed by the shade reference 99ZTY for Indigo, e.g. EVN5050-99ZTY is Coats EcoVerde Dual Duty Indigo Ticket 50, 5,000 M in Indigo shade 99ZTY. For denim stitching a coarse thread size is recommended, for example Ticket 50 / Tex 60

Chemical Properties

Mineral acids:	Polyester: is resistant to most mineral acids Cotton: disintegrates in hot dilute and cold concentrated acids
Alkalis:	Polyester: essentially unaffected by weak alkalis, but less resistant to stronger alkalis, especially at higher temperatures Cotton: swells in caustic, no appreciable strength loss
Organic solvents:	Polyester: generally unaffected, but soluble in some phenolic compounds Cotton: degraded by some solvents
Bleaching:	Polyester: unaffected Cotton: bleached by hypochlorite and peroxides
Insects / microorganisms: (mildew, rot)	Polyester: unaffected Cotton: degrades but can be treated with special finishes
Laundering / dry cleaning:	Unaffected
Moisture regain:	Polyester: 0.4%, Cotton: 8%

Fastness Properties

Washing Fastness 60°C	ISO 105-C10 C	Grade 4
Water Fastness	ISO 105-E01	Grade 4
Rub Fastness	ISO 105-X12	Grade 4*
Hypochlorite Fastness	ISO 105-N01	Grade 4
Dry Cleaning Fastness	ISO 105-D01	Grade 4
Perspiration Fastness	ISO 105-E04	Grade 4
Artificial Light Fastness	ISO 105-B02	Grade 4

Sustainability at Coats

Energy

We reduce carbon emissions through more efficient use of energy and transitioning to renewable sources whenever they become available. This is our crucial contribution to combat climate change.

Materials

With Coats EcoVerde we are driving the material transition away from virgin oil-based sewing threads. And we are on target to achieve 60% sustainable materials by 2026.

Water

The colouration or dyeing process is where we use the most water in our operations. We take great care of water resource by reducing our water intensity and through the installation of water recycling facilities.

Waste

Through all our processes we ensure that we recover, re-use and recycle as much material as possible. Where residual waste product is unavoidable, the waste is processed responsibly and always with the smallest impact on the environment.

People

We have a responsibility to employees, their families, our communities and all the people in our wider supply chain who touch our business. Through policies, programmes and community events, we ensure that safety, wellbeing, fairness, equality, diversity and opportunity are always top of mind for everyone.

Other products in the range

To complement the Coats EcoVerde Dual Duty range, we also have a selection of specialist Dual Duty threads. Each of these have additional benefits specific to the end use.

Product Name	Description
Coats EcoVerde Dual Duty	100% recycled polyester corespun with cotton wrap.
Coats EcoVerde Dual Duty Supercotton	100% recycled polyester corespun with cotton wrap thread that has been especially developed for post dyed cotton garments.
Coats EcoVerde Dual Duty AWF	100% recycled polyester corespun with cotton wrap thread with PFC free anti-wicking.

Specialist Dual Duty products are typically available across a select range of ticket sizes and technical information will in some cases vary from the above table.

To drive your hidden costs down, talk to Coats. From product audits in pre-production to the latest technical bulletins, we'll provide support that achieves measurable results.
