

Coats Textile-to-Textile Threads

Closing the loop in apparel starts at the seam

Coats Textile-to-Textile threads are high-performance recycled sewing threads made from chemically recycled textile waste, including fabric scraps and end-of-life garments. They deliver the same durability and quality as standard Coats threads.

Coats T2T Epic™

High-performance corespun sewing thread made from recycled polyester and textile waste content. Chemically recycled materials are transformed into new polyester filament and fibre, engineered into a durable corespun construction with a polyester wrap for reliable seam strength and consistent sewability.
